## **DETAILED ACTION**

### ***Response to Amendment***

The amendment filed on August 29, 2005 is sufficient to place the application in condition for allowance.

### ***Drawings***

The drawings were received on August 29, 2005. The Examiner hereby approves these drawings.

### ***Allowable Subject Matter***

Claims 1-6 are allowed.

For the reasons noted in the previous Office Action, claims 1-5 are deemed allowable over the prior art of record.

With regard to claim 6, the prior art of record does not disclose or fairly suggest a router system comprising primary and secondary arms, *each arm having a free exterior end and an interior portion movably coupled to the tube; a router secured to the free end of the secondary arm and a scribe secured to the free end of the primary arm* in combination with the rest of the claimed limitations as set forth in claim 6.

As noted in the previous Office Action, neither the prior art of record, Gill nor Hoening discloses primary and secondary arms movably/pivotally coupled to the tube. Thus neither Gill

Art Unit: 3725

nor Hoening discloses the claimed invention as set forth in claim 6. Accordingly, claim 6 is deemed allowable over the prior art of record.

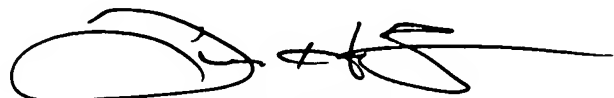

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
